OUR PURPOSE: “BUILDING HAPPINESS!”

Colony is a team of people who have a love for construction with a primary focus on general contracting and steel building installations. In 35+ years in business, we have constructed over 550 buildings on 4 continents.

Our entire reason for existing is to create more happiness in the lives of our clients, our employees and the people around us. This theme carries into everything we do and every decision we make.

CORE VALUES:

Go Home Healthy.

No matter what the cost, everyone we work with will go home healthy to their families every day.

Progressive Personalities.

When it comes to being progressive, our people are open-minded, forward-thinking, and willing to adapt. In today's construction landscape, if you're not progressing forward, you're moving backward.

Cooperation Over Confrontation.

Cooperation is about inviting everyone to be part of one like-minded team with the same goals. We believe that nurturing long term relationships will always be more prosperous than fighting over the petty stuff.

Accountability.

Count on us to come up with a plan and then follow through with precision. When it comes to doing what we say we'll do, we're your "Accountibili-Buddies"!

Doing the Right Thing.

It's easy to pretend to be ethical, but what really counts is what you do when it hits you in the pocket book. Colony believes in doing the right thing, every time, no matter what it costs us.

BUILDING HAPPINESS WITH COLONY

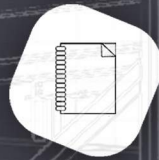

Through 30+ years in business, we've come to learn which suppliers & subcontractors have the "good goods" and which ones don't. Through our comprehensive evaluation process, we rate and track supplier & subcontractor performance on an ongoing basis to ensure the suppliers we chose for your project will:

SUPPLY QUALITY MATERIAL

DELIVER ON-TIME

HONOUR THEIR WARRANTIES

ENSURE THE SAFETY OF THEIR PRODUCTS AND WORKERS

PROVIDE VALUE ADDED SERVICE THROUGHOUT THE LIFE OF THEIR PRODUCTS

OUR PROJECTS

Viking Air
Manufacturing and Maintenance Facility

"I'd have to say that Colony has been very accommodating to be honest with you. Its come together very well both in the Behlen building design as well as the conventional construction. You're doing both, so from our point of view it's a great relationship."

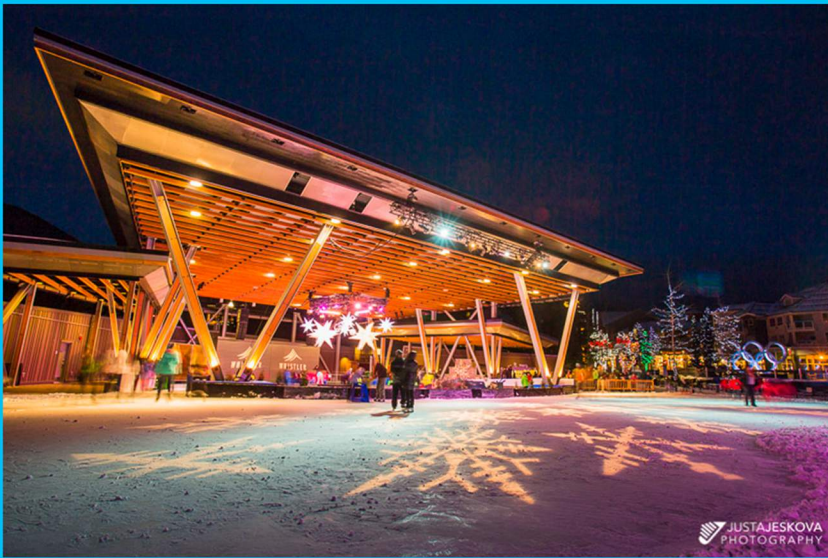

VIC DAVIES ARCHITECT

Brian Inness
Partner

"It's been quite seamless and very quick. It has all played out as we would have expected it to have gone and there have been no surprises."

VIKING AIR LTD.

John Morrison
VP of Finance

Resort Municipality of Whistler
Whistler Olympic Plaza

The Redco Group/ Redwood
Plastic and Rubber
Administrative Building

Powerhouse Building Solutions
Ross Power Industrial Park

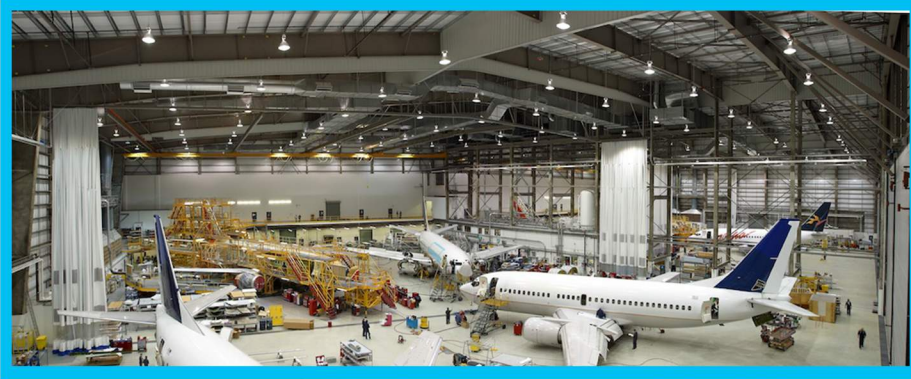

UNBC
Northern Sports Centre

White Rock
Centre for Active Living

Intrawest Resort Holdings Inc
Whistler Peak 2 Peak Gondola

Cascade Aerospace
Maintenance Hangar

"In the instance of Colony, their performance was outstanding in the attention to detail, diligence, clear communications and thorough understanding of all of the building aspects. Colony did what they said they would when they said they would."

PROGRESSIVE VENTURES LTD.
David McKeown
Owner/Founder

"I think some of the real advantages were working with Colony on the design and budgeting process. If we say "Well what if we do this? What's this going to cost us?" Or if we are looking at potential cost savings, the response time from Colony was very quick and allowed us to make decisions quickly, which was a real advantage. I guess the real value was that Colony was able to deliver the building that everybody wanted within our budget and the added bonus was the ability to work with us to fine tune the design and improve the building."

INTRAWEST PLACEMAKING
John R. Morley
P. Eng, Vice President of Development
