OUR PURPOSE: “BUILDING HAPPINESS!”

Colony is a team of people who have a love for construction with a primary focus on general contracting and steel building installations. In 35+ years in business, we have constructed over 550 buildings on 4 continents.

Our entire reason for existing is to create more happiness in the lives of our clients, our employees and the people around us. This theme carries into everything we do and every decision we make.

CORE VALUES:

Go Home Healthy.

No matter what the cost, everyone we work with will go home healthy to their families every day.

Progressive Personalities.

When it comes to being progressive, our people are open-minded, forward-thinking, and willing to adapt. In today's construction landscape, if you're not progressing forward, you're moving backward.

Cooperation Over Confrontation.

Cooperation is about inviting everyone to be part of one like-minded team with the same goals. We believe that nurturing long term relationships will always be more prosperous than fighting over the petty stuff.

Accountability.

Count on us to come up with a plan and then follow through with precision. When it comes to doing what we say we'll do, we're your "Accountibili-Buddies"!

Doing the Right Thing.

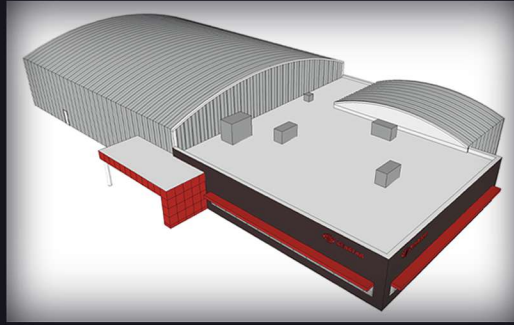

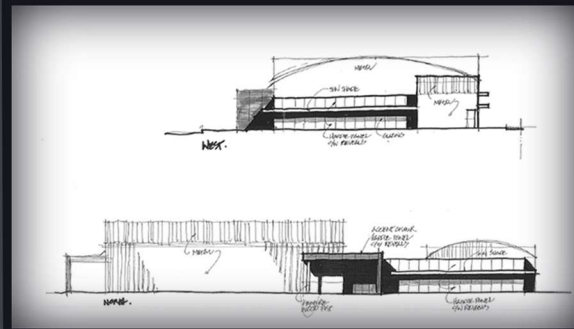

It's easy to pretend to be ethical, but what really counts is what you do when it hits you in the pocket book. Colony believes in doing the right thing, every time, no matter what it costs us.

DESIGN

Do you have a great idea for your new building, but all you have is a few rough ideas or a napkin sketch? We will work with you on a preliminary design and offer guidance when it comes to architectural, civil, landscaping, interior finishing, mechanical and electrical designs.

PLANNING

We put a huge emphasis on planning and scheduling at Colony. We have learned that each hour we spend planning a project saves a day on site. We use Primavera and Microsoft Project software to create detailed execution plans for each scope and to analyze project resources, milestones, safety concerns, quality control and schedule. Unlike other companies we involve our site staff in planning so there are no surprises for anyone once the project starts.

CONSTRUCTION

Those in the know, know that construction can be a difficult process, full of pitfalls, surprises, frustration, and untrustworthy people. With our commitments to "Building Happiness" and "Doing the Right Thing", Colony is changing the stigma around construction. Our clients can count on us to make successful projects easier.

SUPPLY CHAIN

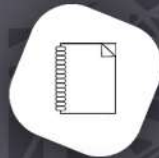

Through 30+ years in business, we've come to learn which suppliers & subcontractors have the "good goods" and which ones don't. Through our comprehensive evaluation process, we rate and track supplier & subcontractor performance on an ongoing basis to ensure the suppliers we chose for your project will:

SUPPLY QUALITY MATERIAL

DELIVER ON-TIME

HONOUR THEIR WARRANTIES

ENSURE THE SAFETY OF THEIR PRODUCTS AND WORKERS

PROVIDE VALUE ADDED SERVICE THROUGHOUT THE LIFE OF THEIR PRODUCTS

OUR PROJECTS

De Beers Canada & Hatch – Gahcho Kue Diamond Mine, NWT
Overland Conveyor Enclosures and Piping

Imperial Metals & AMEC (WoodGroup) – Red Chris Mine
Copper and Gold Mine , Dease Lake, BC
Grinding, Flotation, Concentrate Load Out & Concentrate Storage Buildings

Teck Resources & Fluor Canada – Highland Valley Copper, Logan Lake, BC
– Mantle Rebuild, PRV Valve Station & #2 Booster Station Buildings

Rio Tinto & Praetorian – Diavik Diamond Mine, NWT
Crusher, Paste Backfill Plant, Acid Storage, Arctic Corridor, Truck Shop & Water Treatment Plant Buildings

“We challenged Colony with a remote site, extreme winter conditions, altering schedules and the coordination of working alongside multiple contractors. They responded with cost effective solutions, detailed schedules and deployment of the work on a timely basis. Their attention to details, their open and honest responses and their flexibility to Owners demands is why we will continue to work with Colony on future projects”

IMPERIAL METALS – RED CHRIS DEVELOPMENT

Denis Bernardi
Manager, Contracts & Purchasing

**Pacific Coast Terminals/K+S Potash & CH2M Hill,

Conveyor, Hopper and Transfer Tower Installation**

**Teck Resources & Fluor Canada,
Antamina Copper, Peru
Concentrate & Filter Buildings**

**Kinross Gold Kupol Gold, Russia
All Process Buildings, Truck Shop & Recreation
Building**

“When minor problems arose, Colony was quick to meet with us on site to work out a mutually agreeable solution. Their performance was exemplary.”

WESTMIN RESOURCES LIMITED

Heathcliff A. Lightfoot
Design Engineer

**Syncrude, AMEC & Fluor – Mildred Lake
Mine**

4,000 tons of Structural Steel (Screening,
Trim Heating, Chemical Treatment &
Pumphouse Buildings)

“We would like to take the opportunity to express our appreciation to the staff and employees of Colony for the prompt action and superb craftsmanship. We have been very fortunate to have a company such as yours associated with this project. The supply of material to site was handled in a very efficient manner and the on site erection crews performed admirably. You have made a significant contribution to this project. Again thank you.”

AMEC

Brad Thompson
Construction Manager
